Additional testing					
Test 4	Check typos of the whole application				✗ Failed Link to the bug report
Test 5	Check the: “Home” page (is clickable bug image still present)				✓ Passed
Directory module: Creating a new employee from administrator role					
DM12	Check if the administrator can add a new employee by pressing the “+” button in the Directory page.		✗ Failed (the system allows the creation of duplicate profiles) Link to the bug report		

DM13	Verify that a regular user cannot add a new employee by pressing the “+” button in the Directory page, as the button is not available when logged in as an employee		 Passed		
Directory module: Editing an employee from administrator role					
DM14	Check if the administrator can edit all information of other employees except the email of the user.		 Failed Link to the bug report 1 Link to the bug report 2		
DM15	Check whether the editing functionality is only available for administrators, but not for regular employees.		 Passed		
Directory module: Deleting an employee from administrator role					
DM16	Check if the administrator can successfully delete information of other employees from the application by pressing the “Delete” button in the profile pop-up page.		 Failed Link to the bug report		

DM17	Verify that regular employees cannot delete information of other employees from the application, as the “Delete” button in the profile pop-up page is not available for them.		✓ Passed		
Logout					
LGOUT01	Verify if logging out as an employee ends session and redirects to authentication page	✓ Passed			
LGOUT02	Verify if logging out as an administrator ends session and redirects to authentication page	✓ Passed			
Self-registration					
SR01	Check that the user is able to initiate the registration flow from the login page by clicking the link “Register Here.”			✗ Failed Link to the bug report	
SR02	Verify submission with valid mandatory fields		✗ Failed (Duplicate button on the confirmation page) Link to the bug report		

SR03	Check that the user is able to enter optional information			✓ Passed	
SR04	Verify that the user can't submit the Registration form without filling mandatory fields		✓ Passed		
SR05	Ensure that the user is unable to register with an incorrectly formatted email, and observe how the system responds to invalid email inputs		✓ Passed		
SR06	Ensure that the user is unable to register with an incorrectly formatted password, and observe how the system responds to invalid password inputs		✓ Passed		
SR07	Check that the user is able to choose the notification preferences			✓ Passed	

SR08	Verify that all the data that the user entered is saved and later editable under the user profile			✔ Passed	
SR09	Check that the user can't be registered twice with same information			✘ Failed Link to the bug report	
SR10	Check that the administrator can activate the user manually and after that the user must be able to access the system			✘ Failed Link to the bug report	
Department module					
Departments page					
DPM01 (Navigation)	Check that every authenticated user can see list of all departments added to the system.		✔ Passed		
DPM01 (Sorting)	Confirm that the departments list is correctly sorted by default by name (ASC).		✘ Failed Link to the bug report		

DPM02	Confirm that the user is able to locate a department using a text search for both full and partial matches.		 Passed		
DPM03	Ensure that the application properly handles empty search input. The search request must not be executed in this case and the user must continue to see the list of departments.		 Passed		
DPM04	<p>Ensure that the filtering works as expected and returns correct results.</p> <ul style="list-style-type: none"> • By Parent Department (<i>one or multiple</i>); • by Office (<i>one or multiple</i>); • by Contact name (one person may represent multiple departments). 		 Failed Link to the bug report 1 Link to the bug report 2 Link to the bug report 3 Link to the bug report 4		

DPM05	Confirm that applying multiple filters outputs the correct data based on user selections. <i>E.g., filtering by Parent Department and Office, by Parent Department and Contact name, by Office and Contact name.</i>		 Passed		
DPM06	Confirm that the user is able to bookmark the department(s), open the list of bookmarked departments and delete a department from favorite.		 Passed		
DPM07	Ensure that the user is able to filter the list of bookmarked departments.		 Passed		
Additional testing					

Test6	When multiple filters are applied and no matches are found based on the specified criteria, or the search request has no matching results, the system shows not only the "No matches found" message, but there is also an unnecessary notification "No group with this name found" that appears on the black bar at the bottom of the screen.		 Failed Link to the bug report		
Department information					
DPM08	Check that the detailed information of any department is seen				 Passed
DPM09	Check that the additional detailed information of departments is provided				 Failed Link to the bug report
Managing department information					

DPM10	Check that it is possible to initiate editing departments as an administrator	✓ Passed			
DPM11	Check that it is possible to edit departments as an administrator	✓ Passed			
DPM12	Check that it is possible to edit departments as an administrator and apply changes	✓ Passed			
DPM13	Check that the applied changes are visible to everyone	✓ Passed			
Events module					
List of all events					
EM01	Check that the list of all events is seen by users, and the events have all necessary information visible			✗ Failed Link to the bug report	

EM02	Check that the events are sorted by the start date (oldest at the top of the list) and there is an opportunity to sort them by Start date, End date, Event type and Office.		 Failed Link to the bug report 1 Link to the bug report 2		
EM03	Check that it is possible to search events by name (and by partial name)				 Failed Link to the bug report
EM04	Check that it is possible to filter events by the type, office, start date				 Failed Link to the bug report
EM05	Check that it is possible to add, see and remove bookmarks				 Passed
EM06	Check that it is possible to filter bookmarked events				 Failed Link to the bug report
Event details					

EM06	Check if the user can access the event's details (Name, Description, Start date, End date, Link, Type, Office, Address) from the list of all events by clicking on the event name. Additionally, verify that empty fields are not displayed in the event details view and the order of displayed fields is consistent regardless of empty fields.		✓ Passed		
Adding and managing events					
EM07	Test adding a new event with all fields filled	✗ Failed Link to the bug report			
EM08	Test adding a new event with mandatory fields only	✓ Passed			
EM09	Test adding a new event with missing mandatory fields	✓ Passed			

EM10	Test editing and delete existing event				 Failed Link to the bug report
EM11	Delete existing event	 Passed			
Additional testing					
Test 7	Check that the page: “Manage event” does not have any issues			 Failed Link to the bug report	 Failed Link to the bug report
Test 8	Check that the: “Events” page does not have any issues				 Failed Link to the bug report
Test 9	Check that it is not possible to mark the: “Start date” later than the: “End date”				 Failed Link to the bug report
Test 10	Check that everything is presented correctly when creating a new event				 Failed Link to the bug report
User lists (Internal clubs)					
Seeing all user lists					

UL01	Check that the user lists are visible and have necessary information				 Failed Link to the bug report
UL02	Check that it is possible to see all the needed information when opening a user list				 Failed Link to the bug report 1 Link to the bug report 2
Creating a new user list					
UL03	Check that it is possible to create a new user list when logged in as an administrator.		 Failed (The "List name" field accepts a string with 50+ characters) Link to the bug report		
UL04	Check that it is possible to create a new user list when logged in as an employee.		 Passed NB: See the bug in UL02		
Deleting a user list					
UL05	Check that it is possible to delete an user list as and administrator				 Passed

UL06	Check that it is possible to delete and user list as an employee				✓ Passed
UL07	Check that it is not possible to delete other user's list that is not created by the logged in user				✓ Passed
Adding members to the list					
UL08	Check that the button: "Add to list" is present				✗ Failed Link to the bug report
UL09	Check that clicking on: "Add to list" presents owned user lists	✓ Passed			
UL10	Check that it is possible to add a new user to a list	✓ Passed			
UL11	Check that it is possible to remove an user from a list	✓ Passed			
UL12	Check that it is not possible to create a nameless list when creating a new list in: "Add to list" modal				✗ Failed Link to the bug report

Additional testing					
Test 11	Check that it is possible to filter user lists by type and owner names				<div>  Failed </div> <div> Link to the bug report 1 </div> <div> Link to the bug report 2 </div>
